Professional History

- KD Lamp Co.
- Mintex International
- Armco Steel Corp.

Education

- B.S., Mechanical Engineering, Kansas University

Ed is a process control engineer with more than thirty years' experience. Retired from KD Lamp Co. as Chief Engineer and Manager of Quality Control, he now is the owner of Judy Hand Illustration.

Believing in the importance of giving back, Ed is highly involved in a number of nonprofit activities. He is an immediate past trustee of the Wyoming School Foundation and served seven years as Development Chair of the Wesley Chapel Mission Center. He previously served as an examiner for the ONE Award.

ESCC Experience

Ed has successfully completed ESCC's courses in strategic thinking, board development, coaching for change, and conducting high quality research interviews. Ed has been a coach for the Nonprofit Leadership Institute and EXCEL. His specialization in process flow charting projects was an important aspect of the Jewish Federation's integrated administrative functions project.

We strengthen nonprofits to reach bold community goals.
