Anne is a human relations specialist with nearly 20 years of experience. She currently is Vice President of Human Resources with OPW Fueling Components and is responsible for global HR activities for more than 2,000 employees. Her achievements include launching a leadership development program, streamlining performance management, implementing a data management system, and supervising critical M & A activities. While at General Electric, she was promoted from Human Resources Leader to Human Resources Manager. In addition to her background in human relations, Anne's special skill sets include change management, data analysis, leadership training and curriculum development.

Anne is a past volunteer of Junior Achievement.

ESCC Experience

Anne is a new consultant and looking forward to being part of ESCC consulting teams.

Our dedicated volunteers provide expert consulting that enables community organizations to effectively advance their missions.
